Company management

Volketswil, in November 2011

Staff and organizational changes

Dear Business Partners,

For more than 40 years, our family-run company has been active on the European market.

To plan and safeguard our company's future, we are making the following staff changes in the management of our company as of February 1, 2012:

Urs Biasi (60) will be resigning as CEO but will still be active on behalf of Stahl + Metall AG as the President of the Board of Directors

Richard Honegger (66) – currently the CFO – will be retiring

Roger Zehnder (38) – currently a Sales Manager – will become the CEO and delegate of the Board of Directors

Ueli Müller (53) – currently a Sales Manager – will become the Head of Purchasing + Sales and a member of the Board of Management

Reto Peter (43) – was a long-standing employee in the past and will be rejoining our company in November – he will become the CFO and a member of the Board of Management

We are currently reinforcing our teams in order to safeguard our service and expand it further. The contact persons known to you will still be here for you and will be pleased to assist you.

Thank you for our excellent collaboration; we look forward to our future together.

Kind regards,

Urs Biasi
CEO and owner
