Information Stahl+Metall AG

Dear business partner

In the course of the 2nd quarter of this year, we informed you about our restructuring.

Since then we have been working on a concept for transferring our business activity in order to offer to our customers a secured material supply from established sources as well as to maintain the delivery opportunity for our supply partners.

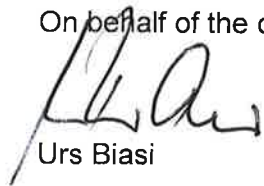

For a big number of our customers, that we were allowed to supply from different producers depending on the product and requirement, we have gained Mimeta SA to continue our operative activity in the usual way. In a first stage, we will actively support Mimeta SA with the integration and our employee Theodora Michos will switch to Mimeta SA. We kindly ask you to address any inquiries and orders directly to Mimeta SA beginning from 1st October 2020. You will find the contact persons and their coordinates on the attached documents.

We will of course fulfil existing contracts as agreed or, in individual cases, after consultation and with your consent, transfer them to Mimeta SA.

Some business relations will not be taken over by Mimeta SA. We will discuss these special cases in advance with the partners involved.

We thank you for the many years of good cooperation and the trust you have placed in us and kindly ask you to transfer this trust in full to your new supply partner Mimeta SA.

On behalf of the owner family and the board

Urs Biasi
